AIR SEARCH RANGE

AIR SEARCH RANGE

JTFP - Ex CLEARWATER 26-01

- **Dates & Location:** 09-18 April 2026, Prince Rupert, BC
- **Major Participating Units:** JTFP HQ, Advanced Naval Capabilities Unit, 443 (MH) Sqn, 4CRPG, 39 Sigs Regt
- **Additional Participation from:** Canadian Coast Guard, RCMP Marine Services Division, 407 (MPAT) Sqn, PAL Aerospace
- **CAF Pers:** 107 Soldiers, Sailors, Aviators, and Rangers participated.
- **Major Deployed Equipment:** 1x CH-148 Cyclone, 3x Defender RHIBs, 10 x UAS (Puma, UKR, G15),
- **Aim:** JTFP must actively improve domestic security capabilities in this strategically important region. Joint and interagency operations are critical to meeting these goals; JTFP planned and led Ex CLEARWATER as a first step to building these capabilities.
- **Operational Training Objectives:** C2 a Joint and Interagency-supported Task Force; Deploy a TF to a remote, domestic environment; Plan and conduct domestic surveillance and presence activities.
- **Tactical Training Objectives:** Integrate TAK as a Joint COP tool integrated with multiple info sources and drone and video feeds to a CP; Practice JISR cross-cueing and target tracking; Exercise maritime UAS surveillance skills; increase Ranger operational capabilities; Exercise MH TTP and Communications in littoral environment with airfield SASF at a deployed domestic location.
- **Key Lessons Learned:** Enabling domestic security is a Joint and interagency task. JTFP is uniquely placed to be the CAF lead on Canada's west coast based on relationships but requires appropriate resourcing and must exercise this capability frequently.

JTFP - EX CLEARWATER 26-01

Dates & Location: 09-18 April 2026, Prince Rupert, BC

Major Participating Units: JTFP HQ, Advanced Naval Capabilities Unit, 443 (MH) Sqn, 4CRPG, 39 Sigs Regt

Additional Participation from: Canadian Coast Guard, RCMP Marine Services Division, 407 (MPAT) Sqn, PAL Aerospace

CAF Pers: 107 Soldiers, Sailors, Aviators, and Rangers participated.

Major Deployed Equipment: 1x CH-148 Cyclone, 3x Defender RHIBs, 10 x UAS (Puma, UKR, G15),

Aim: JTFP must actively improve domestic security capabilities in this strategically important region. Joint and interagency operations are critical to meeting these goals; JTFP planned and led Ex CLEARWATER as a first step to building these capabilities. **Operational Training Objectives:** C2 a Joint and Interagency-supported Task Force; Deploy a TF to a remote, domestic environment; Plan and conduct domestic surveillance and presence activities.

Tactical Training Objectives: Integrate TAK as a Joint COP tool integrated with multiple info sources and drone and video feeds to a CP; Practice JISR cross-cueing and target tracking; Exercise maritime UAS surveillance skills; increase Ranger operational capabilities; Exercise MH TTP and Communications in littoral environment with airfield SASF at a deployed domestic location.

Key Lessons Learned: Enabling domestic security is a Joint and interagency task. JTFP is uniquely placed to be the CAF lead on Canada's west coast based on relationships but requires appropriate resourcing and must exercise this capability frequently.
