Force Generated Elements

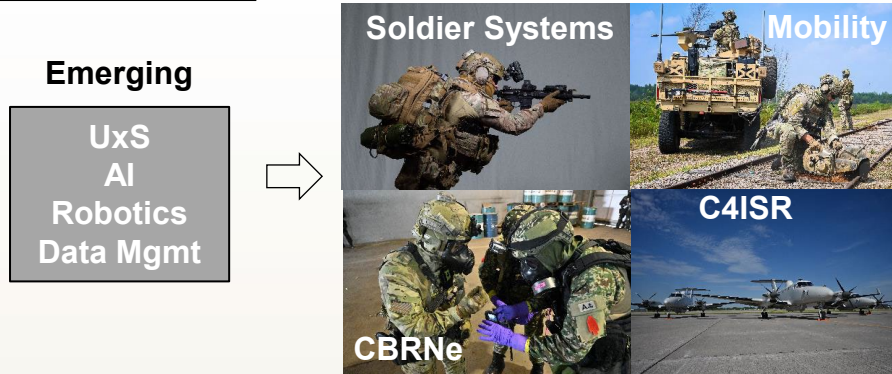

CANSOFCOM Force Development

The SOF Problem:

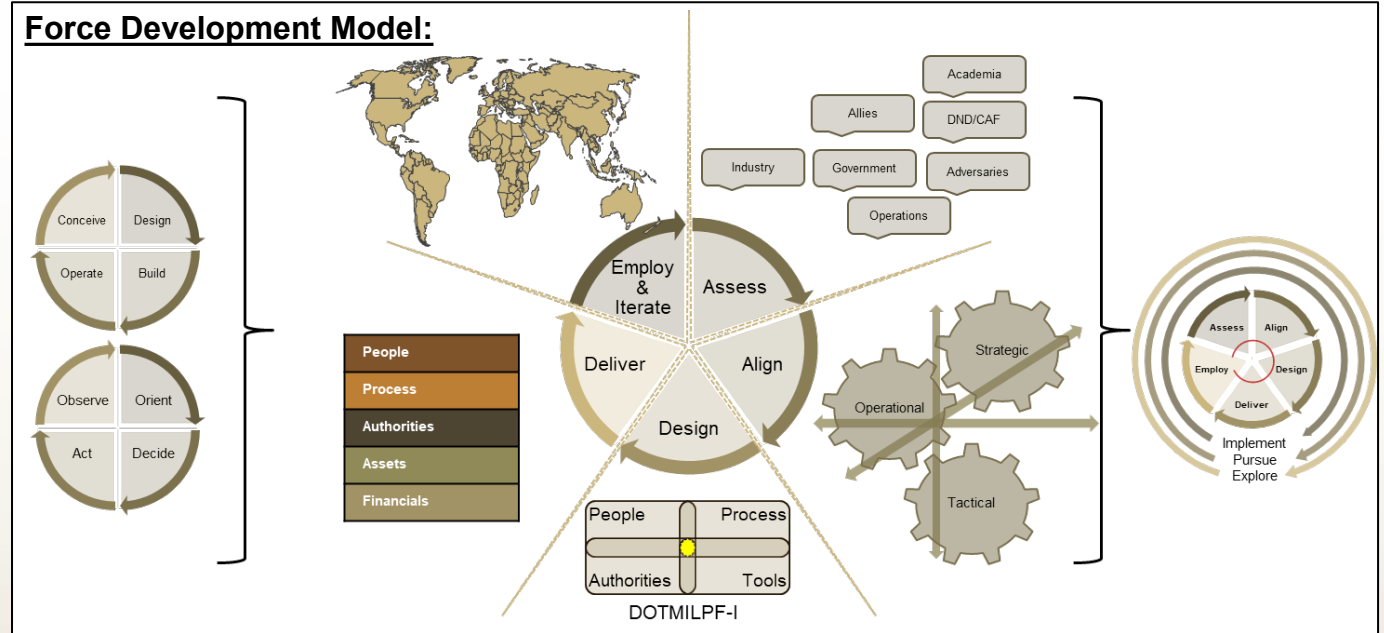

- Continuous operations against adaptive adversaries has informed CANSOFCOM that the critical factor in delivering relevant capability is the ability to learn, adapt, acquire, and iterate at pace.
- SOF Capability is human centric, requiring relatively small investment in the tools required to deliver strategic effects.

Capability Areas:

Director Force Development
Deputy Director
DSR 3 Soldier Systems
DSR 4 Mobility (air, land, maritime) & UxS
DSR 6 Infrastructure
DSR 7 C4ISR
DSR 8 CBRNe and Medical
DSR 9 Science and Technology / Innovation
DSR X Emerging Technology / Futures
**DSR – Director SOF Requirements*

Force Development Model:

CANSOF has an integrated team aligning FG, FM, FE with FD, FS and integral ADM Mat personnel, with close links to S&T, and authorities delegated to the lowest levels.

Objectives:

- » Set conditions for constant and iterative capability development. Collaboration with Academia and Industry. Stable Funding and Resourcing.
