# Cyber & Specialist Operations Command

The Strategic Defence Review set out a bold vision to make Britain ...

## Our world is changing. Threats are more serious and less predictable

Safer

Secure at home

Strong abroad

Achieving this vision requires a landmark shift in the UK's deterrence and defence strategy

Move to warfighting readiness

Act as an engine for UK job growth

Be 'NATO first': step up on European security

Use lessons from Ukraine to drive innovation

Have a whole-of-society approach to defence

# Cyber and Specialist Operations Command (CSOC)

**“Always on”:**

The unseen force ready to fight across domains to protect the nation

CSOC's specialists...

Deliver and enable specialist operations

Constantly combat Cyber and Electromagnetic threats

Arm Defence with data, information and intelligence

Advance the UK's influence through defence diplomacy

Educate and innovate to prepare Defence for future challenges

# Cyber & Specialist Operations Command

---

**Always on | ready to fight across all domains**
